

Join us for our signature event, Skills for Cities, where community leaders and skills-based volunteers unite to champion nonprofits working towards an equitable future. Together, we will address critical operational challenges faced by nonprofits who are addressing issues such as climate change, the digital divide, financial literacy, and health equity. We will leverage our collective expertise to build a more just and sustainable world.

Partner companies will:

- Activate a commitment to diverse talent and social impact.
- Give employees a shared sense of purpose, an opportunity to build skills, and chance for peer networking.
- Invest in capacity building for nonprofits working towards a more equitable future.

In a world marked by rapid technological shifts, environmental challenges, and healthcare breakthroughs, the ability of nonprofits to adapt is crucial. Corporations can bridge this gap by contributing their most valuable assets, their human resources, to support nonprofits via skills-based volunteering.

Impact matters!
